CAREERS AT PLUMBEE

LINE OPERATOR

LOCATION

Nyandarua, Kenya

EMPLOYMENT TYPE

Full Time

Support safe, consistent food production through careful line operation, quality checks and practical teamwork.

PLUMBEE

ABOUT PLUMBEE

Plumbee is a Kenyan child-nutrition company creating trusted food for growing children, from first foods to school days. Our production work requires care, consistency, hygiene and attention to quality because the food we make is intended for children and families.

PLUMBEE

THE ROLE

We are looking for a dependable Line Operator to support safe and consistent production within our manufacturing operations. The Line Operator will operate and monitor assigned production equipment, support product quality checks, maintain good manufacturing practices and work closely with the production team to achieve safe and efficient daily output.

PLUMBEE

KEY RESPONSIBILITIES

- Operate assigned production or packaging equipment safely.
- Follow approved production procedures and work instructions.
- Prepare equipment and production areas before operations.
- Monitor equipment during production.
- Conduct routine production checks.
- Report equipment or product abnormalities promptly.
- Support accurate product weighing, filling, sealing or packaging where assigned.
- Maintain high standards of cleanliness and hygiene.
- Follow food-safety and quality procedures at all times.
- Complete required production records accurately.
- Support line changeovers and cleaning.
- Minimise unnecessary product loss and waste.
- Work closely with supervisors and other production team members.
- Follow workplace safety requirements.
- Support continuous improvement in production operations.

PLUMBEE

WHAT WE ARE LOOKING FOR

- Experience in manufacturing, food production, packaging or a similar operating environment is an advantage.
- Ability to follow instructions and standard operating procedures.
- Strong attention to detail.
- Good personal hygiene and commitment to food safety.
- Reliability and punctuality.
- Ability to work effectively as part of a production team.
- Willingness to learn.
- Practical problem-solving ability.
- Ability to maintain accurate basic production records.
- Commitment to safe and consistent work.
- Technical or vocational training related to manufacturing, food processing, mechanical operations or a related discipline is an advantage but not mandatory where relevant practical experience exists.

PLUMBEE

WHAT SUCCESS LOOKS LIKE

- Production equipment is operated safely and consistently.
- Product and packaging quality requirements are maintained.
- Production records are accurate.
- Hygiene and food-safety procedures are followed.
- Problems are identified and reported early.
- The production team works efficiently together.

HOW TO APPLY
